

# PREPARING FOR YOUR MOVE

## How to expedite your move:

*Boxes* - are typically loaded first so try to have them all in one area with easy access with the heaviest boxes on the bottom. Have them labeled with which room you'd like them in at your new location and mark which ones are fragile.

*Drawers and Cabinets* - everything should be removed from all drawers and cabinets (on moving day we may need to remove drawers and move them separately if the furniture is made from particleboard or press-wood).

*Disassembly* - of any items prior to us arriving saves time but we're happy to help if needed (additional costs for this service apply to itemized moving rates but not to hourly rates).

## Appliances:

*Washers and Dryers* - can be unhooked and re-hooked by our crew as long as they aren't gas connections. Front loading washers must be moved with shipping/stabilizing pins for safe transportation. Infinity Moving can not be held liable for damage if they aren't secured with the pins.

*Fridges* - should be defrosted with all food removed at least 2 days prior to moving day if they're being moved into a storage facility, portable storage (POD) or rental truck.

## Loading Only: Rental Trucks (like Uhaul/Penske) or PODS

*Blankets & Tie Downs* (ex. straps, rope) need to be provided by you, the customer, in order to secure and protect the load for transit.

## Hazardous Materials:

The following hazardous materials (any substance that is flammable, corrosive or explosive) can not be transported by any household goods mover as per the Texas Department of Motor Vehicles:

Aerosols	Chemistry sets	Sterno	Fertilizers
Ammunition	Kerosene	Gasoline/Motor Oil	Nail polish/polish remover
Car batteries	Paint thinner	Propane tanks	Household batteries
Cleaning solvents	Paints	Poisons	Liquor
Charcoal/ lighter/matches	Ammonia	Dark room chemicals	Fireworks
Swimming pool chemicals	Bleach	Lamp oils	Pesticides

## Personal Items:

It is advised that the following personal items be packed and transported by you, the customer, due to their monetary or sentimental value:

Jewelry/Furs	Firearms	Cash/Checkbooks	Laptop Computers/Electronics
Collections (coin, etc.)	Medications	Photo Albums	Financial Documents
Personal Videos/DVDs	IRAs, Deeds, Stocks, Bonds	School/Medical/Tax Records	Antiques that aren't furniture

## Insurance:

All Texas movers are required by the TxDMV to carry the liability amount of \$.60 per pound for damaged or lost items. This means that the payout is based on the weight of the item, not the value. For example if you have an item that weighs 100lbs then the payout would be \$60. At this time Infinity Moving does not offer additional transit insurance. You can purchase transit insurance through an insurance company of your choice if you're looking for complete coverage on your items. Transit insurance is not regulated by the TxDMV or Texas Dept of Insurance so read over the policy carefully to understand the coverage and deductibles. You can also check with your homeowners insurance to see if you already have coverage with them or perhaps they can write a policy for you.
